Hi Morya,

Thank you for your email.

Our explanation as to why we do not approve that the information is shared is that our agreement and the contractual deal terms contained within it are confidential. Our agreement states that all information contained in our license agreement constitutes confidential and/or proprietary information.

Further, beyond the confidential license fee amounts other key business terms are deal and partner-specific, such as exclusivity, territory and payment terms. As Netflix has entered into many partnerships in the region and globally, we would like to maintain the trust with our partners that we have honored the confidentiality terms of our agreement, as we expect them to do the same.

We note that we responded on 5 June, before the end of 21-day period asserting our request that information not be shared.

Thank you,

██████████

Hi ██████████,

Thank you for your response.

As the 21-day period has passed, I would appreciate receiving **your explanation** as soon as possible regarding your preference not to have this information shared.

Additionally, please clarify whether there is any part of the information that you would approve for disclosure, and if so, what that includes.

Please note that the final decision regarding disclosure rests with us, after taking your position into consideration.

We will review your request on its merits and will inform you of our decision regarding whether the information will be shared.

It is further clarified that, in accordance with applicable law, the final discretion to provide the information to the applicant lies with the corporation.

Regards,

Morya

Hi Morya,

Thank you for the reminder. Upon internal review we request that the Netflix and KAN agreement and amendment and the information contained within not be shared.

Do you need anything further from Netflix to confirm our request?

Thank you,

████████
